

Town Manager's Report for July 1 - 5, 2019

Items to report on from this week include the following:

Planning/ Building/ Engineering Update:

The City Engineer-Public Works Director's Report will return next week.

Staff is coordinating responses to public comment with GreenWaste Recovery about the renewed Waste Collection Agreement. Most of the complaints are about the increase in on-premise service rates and the requirement to haul yard waste to the curb. GreenWaste is offering discounted on-premise service rates for folks with qualifying medical issues or who qualify for LifeLine assistance. GreenWaste Recovery is reviewing the small truck routes as well. Some routes that were initially described as needing the small truck have been revised.

Building Permits were issued this month for 1 new residence and 1 second unit. A total of 31 permits were issued and 158 inspections made.

A total of 25 projects were submitted for Planning review of which 5 minor projects were approved.

There were no projects approved this week at the Site Development/Fast Track Hearing.

The first group of three (3) unresolved areas on the Master Path Plan are scheduled for the July 11th Planning Commission Agenda. A recommendation of each segment/connection will be made by the PC and then a City Council date will be set to hear the items.

Stanford General Use Permit Update – The County Planning Commission held a hearing on the General Use Permit on June 27, 2019 and forwarded a recommendation to the Board of Supervisors to approve the project. The Board of Supervisors is set to review the Use Permit in November 2019.
