

**CANDIDATE STATEMENTS FOR
MEMBER, LOS ALTOS HILLS CITY COUNCIL**

LISA H. SCHMIDT	JAY T. SUTARIA
<p>Occupation: Business Owner Age: 60</p> <p>Education and Qualifications:</p> <p>I seek to meaningfully improve the health and vitality of our community—not just by retaining and celebrating what makes Los Altos Hills so beautiful, friendly and special—but by going further to affect and improve the broader community of which we are also a part. I believe we can become a beacon for similar towns by growing in balance, masterfully caring for all interests, and becoming stronger as a result. By collectively addressing topics like social inequity and climate change, along with satisfying your real concerns and interests we can together deepen our pride in stewarding our town into the future.</p> <p>I have enjoyed living in Los Altos Hills with my family for 28 years and meeting so many interesting people where as a mom I was active in the PTA and site council. My work with local conservation organizations drives my desire to protect our wild spaces. I bring 20+ years experience as an engineer and executive in the technology industry, including 4 successful startups. More recently my husband Steve and I built Home Energy Analytics, a startup focused on improving energy efficiency in homes.</p> <p>Thank you for your support! www.LisaSchmidt.org</p>	<p>Occupation: Engineer/Executive</p> <p>Education and Qualifications:</p> <p>Seven years ago I moved my family to Los Altos Hills because of the extraordinary community and natural beauty of our Town. My parents immigrated here with little more than intelligence, a willingness to work hard, and dreams of a better life. Following their example, I worked my way up in Silicon Valley from entry-level engineer to executive. I learned how to truly listen to others, building consensus while managing multi-billion dollar budgets. This same responsive yet strategic approach is what is needed in Los Altos Hills today. We can no longer allow our government to approve non-competitive contracts for essential services like garbage collection. The days of allowing councilmembers to prioritize projects that are completely out of touch with our town—like squandering state grants to renovate a snack shack instead of investing in a needed park for all residents—must end.</p> <p>It would be my honor and privilege to put the people of Los Altos Hills first and ensure local government is honest, transparent, and fair, and is planning for the future instead of jumping from crisis to crisis. Reach out anytime: JSutaria.LAH@gmail.com JayForLAHCouncil.com.</p>
LINDA G. SWAN	STANLEY Q. MOK
<p>Occupation: Businesswoman/Engineer</p> <p>Education and Qualifications:</p> <p>I feel blessed to have lived for 32 years in this beautiful, family-oriented town, with open space and rural traditions that support the mental and physical health of us all. Our neighbors come from all over the world and have, for good reason, chosen to live in Los Altos Hills.</p> <p>As a council member, I will work to preserve the best aspects of this wonderful town and work to provide the best services to the residents. The citizens of this town have a wealth of knowledge and experience, which I want to tap to aid in steering the town toward the finest future we can envision.</p> <p>I will act thoughtfully, responsibly, and with integrity to insure the strong financial position of the town is put to the best use for the residents.</p> <p>Analytical and business oriented, I graduated from Arizona State University and the University of California with B.S. and M.S. degrees respectively in mechanical engineering and earned a M.B.A. from Santa Clara University. At GE, I oversaw the building and testing of mechanical equipment for power plants and then oversaw the design and building of training hardware for NASA Space Shuttle astronauts.</p> <p>I would be honored to have your vote and support.</p>	<p>Occupation: Businessman</p> <p>Education and Qualifications:</p> <p>My name is Stan Mok and I have been fortunate to have lived in Los Altos Hills for more than 23 years. I want to give gratitude for all the positive experiences, neighbors, and friends I have made and wish to give back to my community.</p> <p>I have been actively engaged with my community and worked on at least five political campaigns as Treasurer to promote responsible, value-based stewardship of our rural town. I have also donated time and energy to serve three complete 4-year terms on the Los Altos Hills Finance and Investment Committee since 2007. As a founder of the Bullis Charter School I helped retain Gardner Bullis School as the town's sole public elementary school. My objective is to maintain and continue building a solid financial base for Los Altos Hills, in good times and in bad.</p> <p>I am a graduate of the University of Santa Clara with a B.S.C. in Management. After working 17 years in the brokerage industry, I resigned from Prudential Securities as a First Vice President and I founded Mok Capital Management in 1997. I am a fiduciary and currently work both as a portfolio manager and financial planner for wealthy individuals.</p> <p>Please vote for me on Election Day, I promise that I will do my best to represent you well.</p>

**CANDIDATE STATEMENTS FOR
MEMBER, LOS ALTOS HILLS CITY COUNCIL**

RAJ REDDY

Occupation: Retired Energy Executive

Education and Qualifications:

I have had the distinct privilege of living in Los Altos Hills for the past 33 years, and I have pleasant memories of raising my two sons, volunteering with fellow residents at community organizations. Los Altos Hills community is a very unique with beautiful natural surroundings, provides quality education choices and recreation opportunities for all to enjoy.

My corporate experience includes various management positions with major multinational companies: General Electric, Bechtel Corporation, Kenetech and Electric Power Research Institute. I have earned BSME, MBA.

I have participated in numerous voluntary activities for our Town of LAH. I served on the Environmental Initiatives Committee for over 15 years, established guidelines and ordinances for Green Building requirements, advisor to Bay Area Climate Collaborative, supported LAH participation in Silicon Valley Clean Energy.

As a retired executive with extensive corporate and volunteer experience, I am committed to serving our community. If elected, I hope to take bold action to protect and enrich our environment. I support underground utilities, energy efficiency, water conservation, open space regulations, reduction of GHG emissions and green building. I will be honored to have your vote.
